PHASE / MILESTONE	TECHNICAL SCOPE & PRODUCTION DELIVERABLES	TURNAROUND	HOURS	INVESTMENT
PHASE 0 Live Prototype	Working Dual AI Pipeline & Exemplar Engine (COMPLETED): Live Next.js 15 App Router, OpenAI gpt-4o-mini + Gemini 2.0 Flash failover, 50+ Exemplar RAG bank, 6-sec glance rubric, and Dify/FastAPI blueprints.	Instant	0 hrs	\$0.00 (Ready)
MILESTONE 1 Archive Vector RAG	50–100+ Exemplar & ChatGPT Transcript Ingestion: Clean and structure Ope's past before/after resume pairs; embed via OpenAI text-embedding-3-small into PostgreSQL pgvector for semantic retrieval by candidate pivot category.	Week 1	12 hrs	\$300.00
MILESTONE 2 5-Law Engine	Ope's SDR Positioning Prompts & Matrix: Codify the 5 Core SDR Laws into prompt rules (6-second hook, 70% metric density, retail/teaching translation matrix, Apollo/Salesforce tooling, and phone grit proof).	Week 2	14 hrs	\$350.00
MILESTONE 3 Hiring Manager Gate	VP of Sales 6-Second Glance Evaluator: Automated rubric scoring drafts against Tier-1 B2B SaaS hiring manager standards, checking metric density, rejection stamina, and ATS parsing readability.	Week 3	12 hrs	\$300.00
MILESTONE 4 Coach Review Studio	Review Queue & Intake Automation: Side-by-side diff studio with coaching tags, Airtable/Typeform intake integration, 3-minute coach sign-off controls, and 1-click ATS-ready PDF/DOCX generation.	Week 3–4	10 hrs	\$250.00
MILESTONE 5 Zero Lock-in Handover	Sovereign Deployment & IP Handover: Production deployment to Ope's preferred environment (Dify Cloud, self-hosted Docker VPS, or FastAPI microservice), full prompt repo handover, and 1-on-1 walkthrough.	Week 4	8 hrs	\$200.00

TRACK 1: DISCOVERY & CORE PROTOTYPE SPRINT

\$650.00 Capped

26 Hours @ \$25.00/hr (Milestones 1 & 2): Rapidly ingest 25 exemplar resumes, fine-tune the 5-law translation prompts, and prove 80–90% automation on Ope's actual backlog before full platform deployment.

TRACK 2: ONGOING SCALE & REFINEMENT RETAINER

\$1,500 – \$2,000 / mo

15–20 Hours/Week @ \$25.00/hr: Covers Milestones 3–5, continuous prompt additions for emerging SDR verticals, new cohort exemplar vectorization, and zero-downtime maintenance. Cancel anytime.

100% Client IP Ownership & Zero Vendor Lock-in

All code, prompt definitions, vector database schemas, and candidate data belong exclusively to Ope. Sovereign portability across Dify DSL, Python FastAPI, n8n, and Docker.

Securiti Certified AI Security & Privacy (OWASP / NIST)

Inline PII sanitization (redacting candidate phone numbers, addresses, and IDs) and prompt injection defense ensuring compliance with NIST AI RMF standards.
